### **Capital Campaign Report**

Capital Campaign funds that have been raised are close to \$17 million. Development staff is discussing broad-based approaches such as internet "crowd funding" and more traditional mailings.

We are expecting for the Weinberg Foundation to process our application by the end of April and their Board to consider the funding decision at their May meeting.

The work on the new nursing home proforma is anticipated to be completed in April. A Board discussion on the proforma, the bond debt, and triggering the capital construction project will take place in late May.
