Cedar Sinai Park Operating Committee Report

Operations in the four downtown HUD buildings are within expected parameters. Building maintenance issues are routinely managed as expected. Service Coordinators are continuing to assist residents with access to services and are collaborating with increased effectiveness with the Housing with Services staff. Based on the February financial report, financial performances are within expected parameters as well.

Sandra Simon will be meeting with Pam Washington to discuss improvements in managing security expenses.

Quarterly Financials will be reviewed by the Affordable Housing Operating Committee in June.
